How to add ICC profiles to VerteLith (v5.0+)

Modified on: Mon, 17 Oct, 2022 at 2:46 PM

There are 3 ways to add profiles to VerteLith:

- by downloading from the Mutoh Club server.
- by manually *importing* .mpdf files from your HD.
- by manually copying .icc and .ssp file into VerteLith's folder structure
- •

Downloading from the Mutoh Club Server

- Open the Profile Library from VerteLith's menu. xp xpi-1642wr 1
- In the Profile Library, in the lower right corner you'll find the DOWNLOAD button

😽 VerteLit	th				
File Ma	nage Printer View Help				
() F	Profile Library				
	Printer Model	Inkset	Pro	ofile Group	Co
	XPJ-1642WR	КСМҮ	✓	MS51 DDS	
	XPJ-1641SR-P		✓	MS51 For Evaluation	
	XPJ-1682SR-P		✓	MS51 For Exhibition	
	XPJ-1341SR-P		✓	MS51 Hexis-V3000WG (converted from 1641SR	

• The <u>Download Manager</u> will pop up and allows you to download profiles directly from the Mutoh Club into your driver.

м	M VerteLith Download Manager v1.0.4 — 🗆 🗙						
F	rofile [Download (XPJ-	-1682SR-P)				
Installed List		C	Download List			С	
	No.	Inkset	Profile Group	No.	Inkset	Profile Group	
	1	KCMY	MS51 DDS				
	2	KCMY	MS51 For Evaluation				
	3	KCMY	MS51 For Exhibition				
	4	KCMY	MS51 Hexis-V3000WG (converted from 1641S				
	5	KCMY	testeterer				
	Inkset Show all V Profile Group Show all V		Sele	ct All			
					Dov	vaload Import	Cancel
					200	Import	

Manually importing .mpdf files from your HD

The IMPORT button in the Download Manager allows to import .mpdf files from you HD. Note that the Printer Profiler software can export .mpdf files.

м	VerteLit	h Download Manag	jer v1.0.4				- 🗆 X

	5	KCMY	testeterer				
	Inkset	Show all V	Profile Group Show all V	Sele	ct All		
					Dov	vnload Import	Cancel

Manually copying .icc and .ssp files in VerteLith's folder structure

In the case you have received .icc and .ssp files from our Support Departments you can copy them directly in the folder structure.

For example:

C:\ProgramData\Mutoh\VerteLith\Profiles\Printer\XPJ-1682

- Make sure to copy your folder into the correct Ink Setup folder.
- Note that the ProgramData folder is hidden by default.
