

Download and Import Media Profiles from Roland Profile Center into Roland VersaWorks®

This document shows you how to easily download media profiles from the Roland Profile Center website and upload the media profiles into your version of the Roland VersaWorks® RIP Software.

Welcome to the Roland Profile Center.

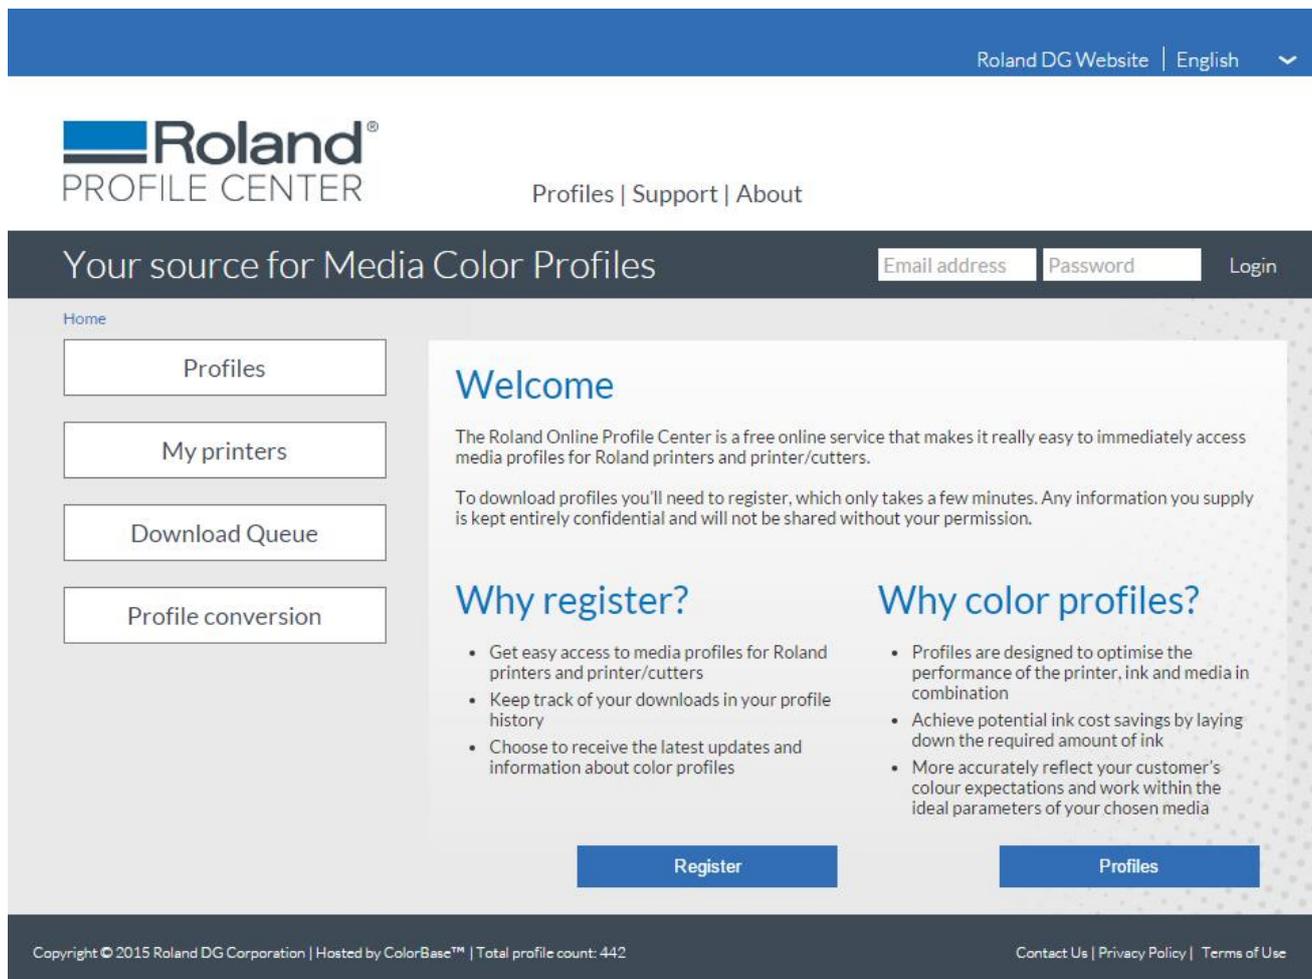

www.rolandprofilecenter.eu

The Roland Profile Center is a one-stop site for obtaining media profiles for your Roland printer, enabling you to produce the highest quality output from your Roland inkjet.

Simply download a profile for the selected media, import it into your RIP and start printing. It's that easy.

Please be informed that many of the media profiles posted within the library will be supplied by media manufacturers other than Roland. With this in mind, and because Roland can only test, endorse and guarantee its own profiles, users are encouraged to test any profiles selected from the library before printing to ensure satisfaction.

Roland encourages all media manufacturers to participate in this programme. If you are a media manufacturer and you would like to receive more information, please e-mail your request to mediasupport@rolandprofilecenter.eu

The screenshot shows the Roland Profile Center website. At the top right, there is a navigation bar with "Roland DG Website" and "English" with a dropdown arrow. Below this is the Roland PROFILE CENTER logo and navigation links for "Profiles | Support | About". The main header area contains the text "Your source for Media Color Profiles" and login fields for "Email address", "Password", and "Login". On the left side, there is a sidebar with buttons for "Profiles", "My printers", "Download Queue", and "Profile conversion". The main content area features a "Welcome" message, a "Why register?" section with three bullet points, and a "Why color profiles?" section with three bullet points. At the bottom of the main content area, there are "Register" and "Profiles" buttons. The footer contains copyright information: "Copyright © 2015 Roland DG Corporation | Hosted by ColorBase™ | Total profile count: 442" and links for "Contact Us | Privacy Policy | Terms of Use".

This guide is for use on Windows systems only.

Change languages

The screenshot shows the Roland Profile Center website interface. In the top right corner, there is a language selection dropdown menu. The menu is currently set to 'English' and is open, showing a list of six languages: Deutsch, English, Español, Français, Italiano, and Português. The 'English' option is highlighted in blue. Below the language menu, the website header includes the Roland Profile Center logo, navigation links for 'Profiles | Support | About', and a search bar with fields for 'Email address' and 'Password', and a 'Login' button. The main content area features a 'Home' section with buttons for 'Profiles', 'My printers', 'Download Queue', and 'Profile conversion'. A 'Welcome' message follows, explaining the service and registration process. Two columns of text, 'Why register?' and 'Why color profiles?', provide benefits of the service, each with a list of bullet points and a corresponding 'Register' or 'Profiles' button. The footer contains copyright information and links for 'Contact Us', 'Privacy Policy', and 'Terms of Use'.

From the right corner of Roland Profile Center, you can choose between 6 different languages:

English

German

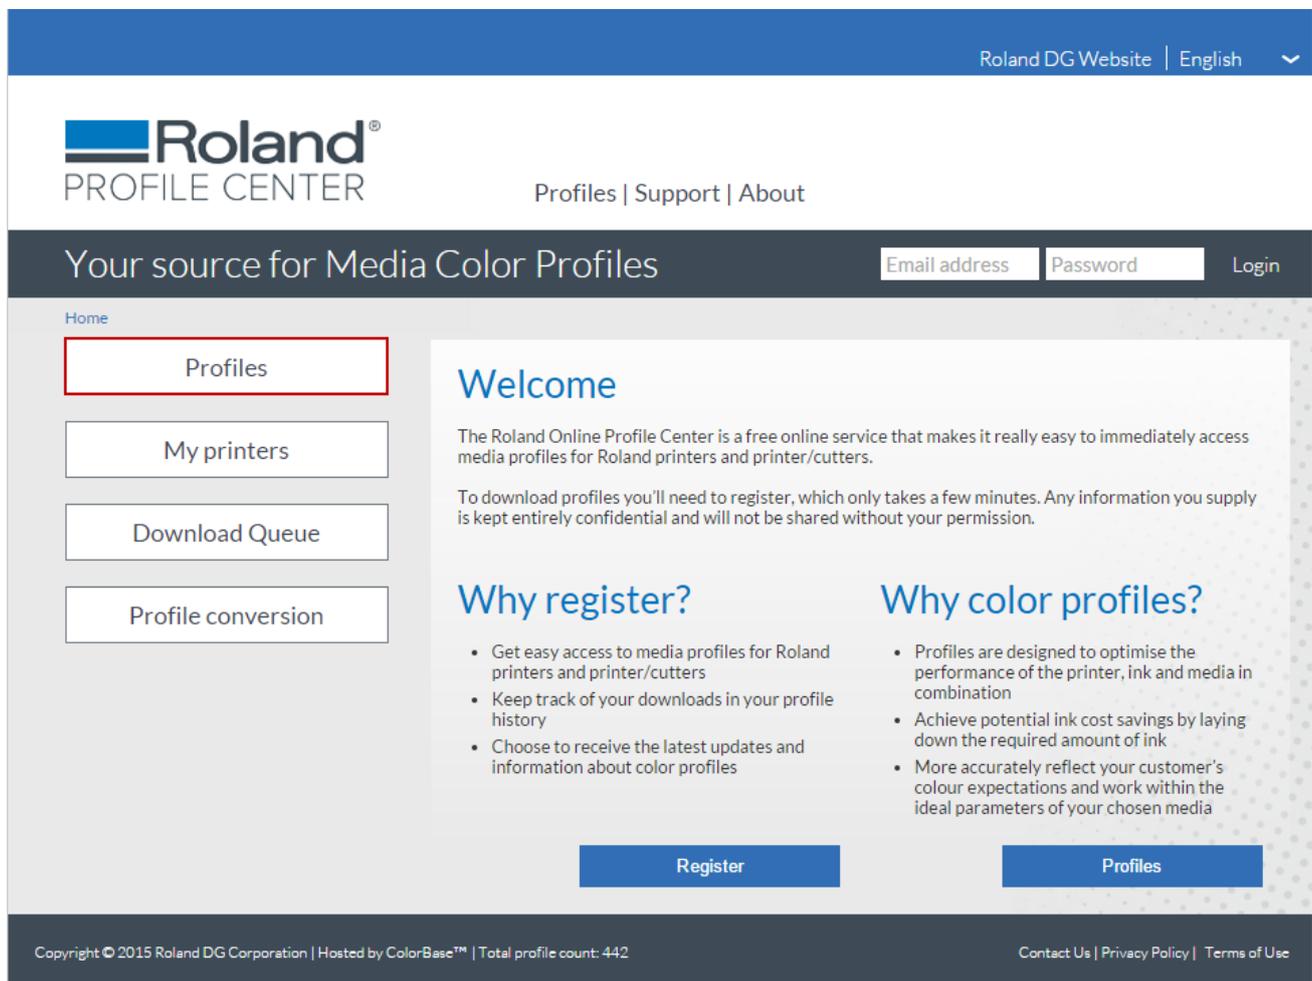

Spanish

French

Italian

Portuguese

View profiles

The screenshot shows the Roland Profile Center website. At the top right, there is a navigation bar with "Roland DG Website | English" and a dropdown arrow. Below this is the Roland PROFILE CENTER logo and navigation links for "Profiles | Support | About". A dark grey banner contains the text "Your source for Media Color Profiles" and login fields for "Email address", "Password", and "Login". On the left side, there is a "Home" section with four buttons: "Profiles" (highlighted with a red border), "My printers", "Download Queue", and "Profile conversion". The main content area features a "Welcome" message, a "Why register?" section with three bullet points, and a "Why color profiles?" section with three bullet points. At the bottom of the main content area, there are two blue buttons: "Register" and "Profiles". The footer contains copyright information: "Copyright © 2015 Roland DG Corporation | Hosted by ColorBase™ | Total profile count: 442" and links for "Contact Us | Privacy Policy | Terms of Use".

In the “Profiles” section you can see the available profiles.
Note that you need to register in order to download profiles.

How to register

The screenshot shows the Roland Profile Center website interface. At the top right, there is a navigation bar with "Roland DG Website | English" and a dropdown arrow. Below this is the Roland PROFILE CENTER logo and navigation links for "Profiles | Support | About". A dark header bar contains the text "Your source for Media Color Profiles" and login fields for "Email address", "Password", and "Login".

On the left side, there is a "Home" section with four buttons: "Profiles", "My printers", "Download Queue", and "Profile conversion".

The main content area features a "Welcome" message: "The Roland Online Profile Center is a free online service that makes it really easy to immediately access media profiles for Roland printers and printer/cutters. To download profiles you'll need to register, which only takes a few minutes. Any information you supply is kept entirely confidential and will not be shared without your permission."

There are two "Why register?" sections. The first section lists three benefits:

- Get easy access to media profiles for Roland printers and printer/cutters
- Keep track of your downloads in your profile history
- Choose to receive the latest updates and information about color profiles

 A blue "Register" button is positioned below this list.

The second "Why register?" section lists the same three benefits. A blue "Register" button is positioned below this list and is highlighted with a red border.

At the bottom left of the page, there is a footer: "Copyright © 2015 Roland DG Corporation | Hosted by ColorBase™ | Total profile count: 442".

By registering on Roland Profile Center, you will grant access to features related to your Roland printer. You will get easy access to media profiles, keep track of your downloads and the possibility to receive updates and information about color profiles.

When you have the needed profiles, click “Download Queue”

Download Queue

Below is the list of profiles you've selected to download. Once you select the download button a zip file will be prepared. Please note, the more profiles you download, the larger the zip file. In some cases it may take several minutes to prepare the zip file and also to download the zip file. Once a profile has been downloaded, it will be listed in your download history.

[Remove All](#) [Download Queue](#)

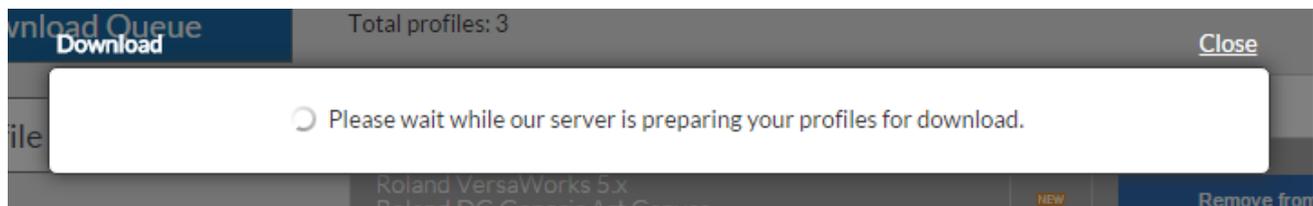

Total profiles: 2

Profile		
Roland VersaExpress RF-640 Roland VersaWorks 5.x Roland DG Generic Art Canvas CMYK - Eco-Sol MAX 3 - CMYK - 1080x1080 - 9 pass - Bi	NEW	Remove from Queue
Roland VersaExpress RF-640 Roland VersaWorks 5.x Roland DG Generic Art Canvas CMYK (v) 10pass - Eco-Sol MAX 3 - CMYK - 1440x720 - 10 pass - Bi	NEW	Remove from Queue

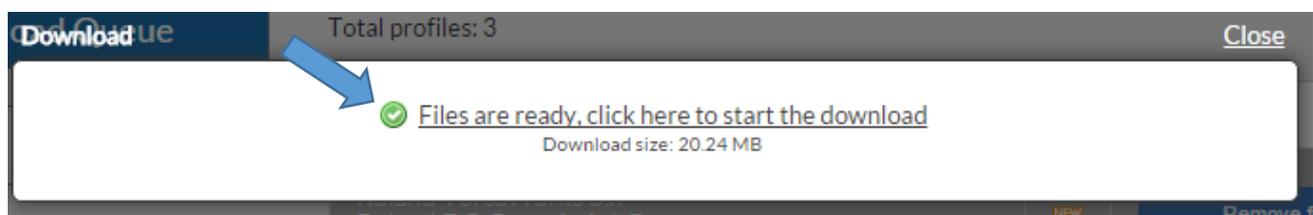

From this menu, you can Download all the profiles you have selected, remove all, or remove one-by-one.

Download profiles

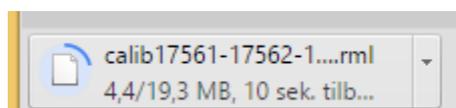

By clicking the “Download queue” the system will start preparing the package for download

When the package is ready for download, the system will display the following

Click the link.

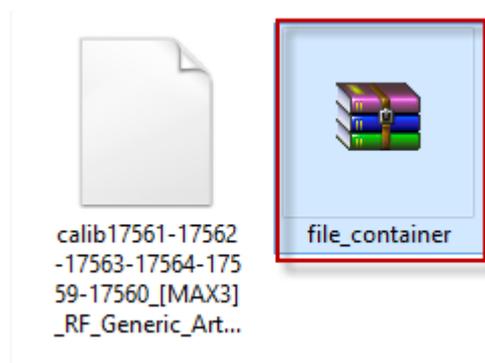

The download starts.

 calib17561-17562-17563-17564-17559-17560_[MAX3]_RF_Generic_Art_Canvas.rml	19-09-2015 12:31	RML-fil	19.770 KB
---	------------------	---------	-----------

Go to your local download folder, where you will find the needed RML file.

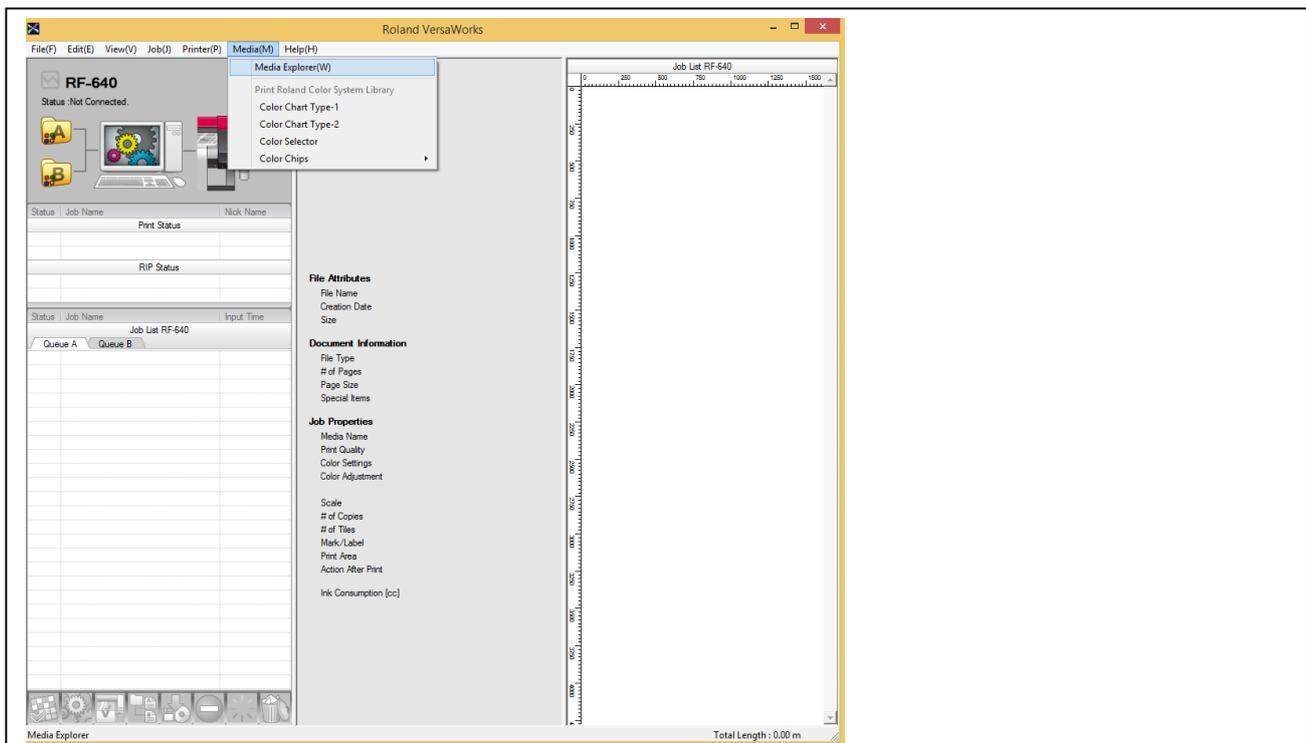

The system prepare rml files if you select profiles from only media.

If you combine different media profiles, e.g. Vinyl and Banner in one download, the system will make a compressed file. Extract the compressed file and you will see the rml needed.

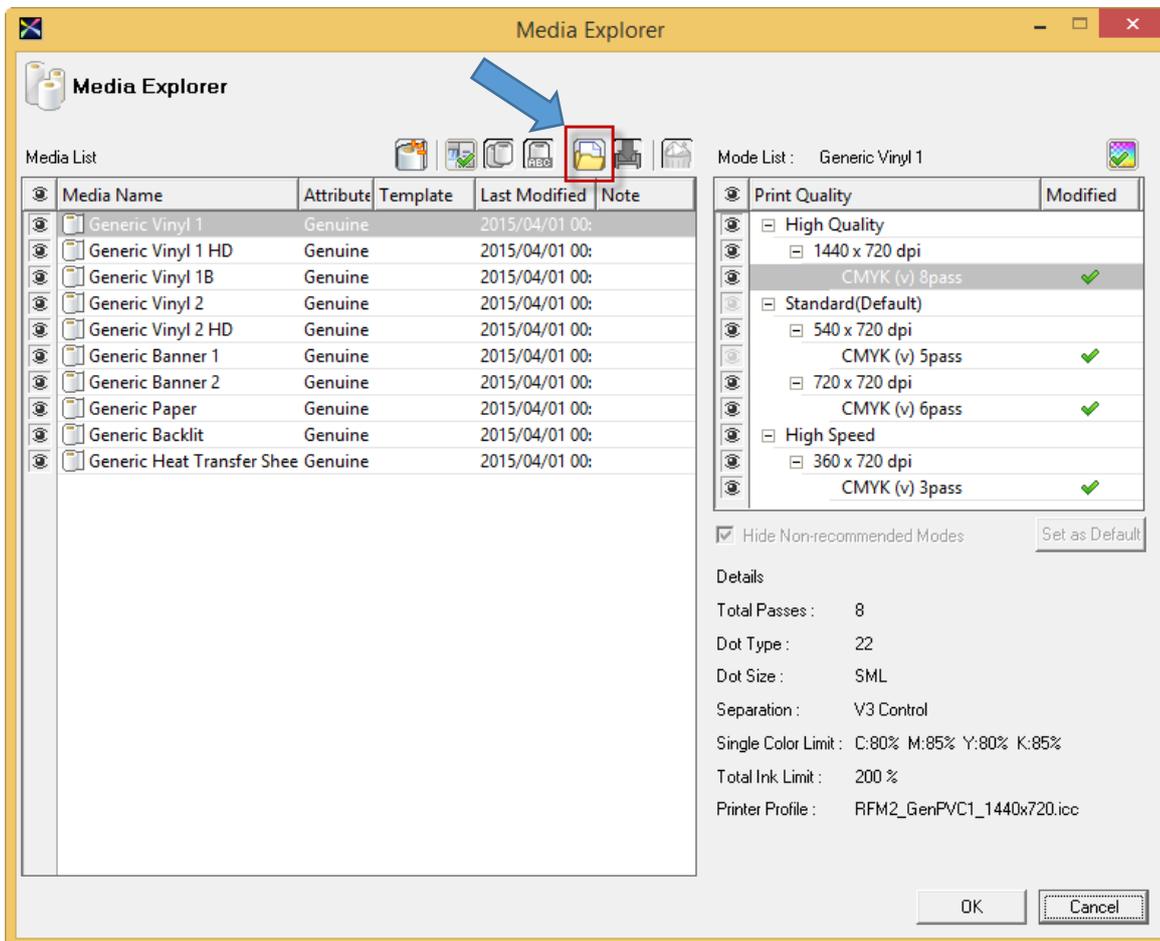

How to import profiles

Open Roland VersaWorks

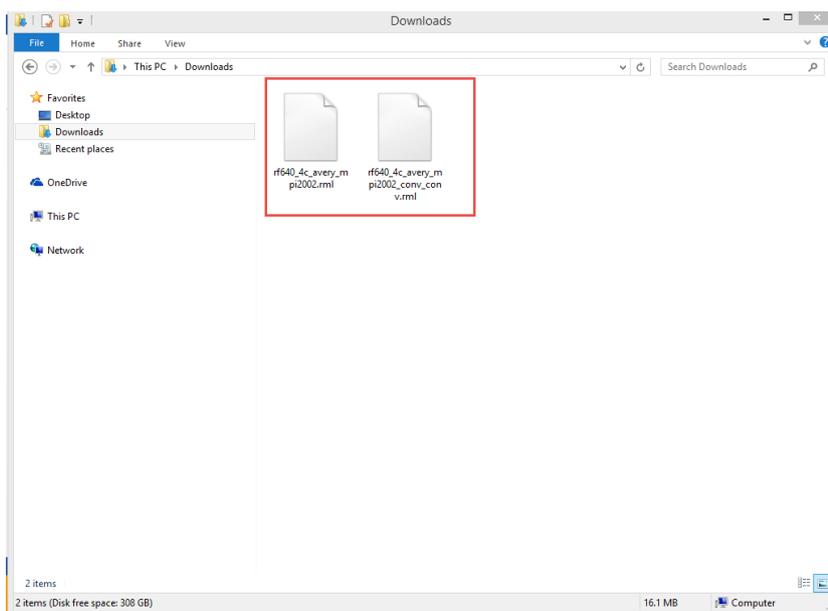

Go to the menu "Media", and select "Media Explorer"

How to import profiles

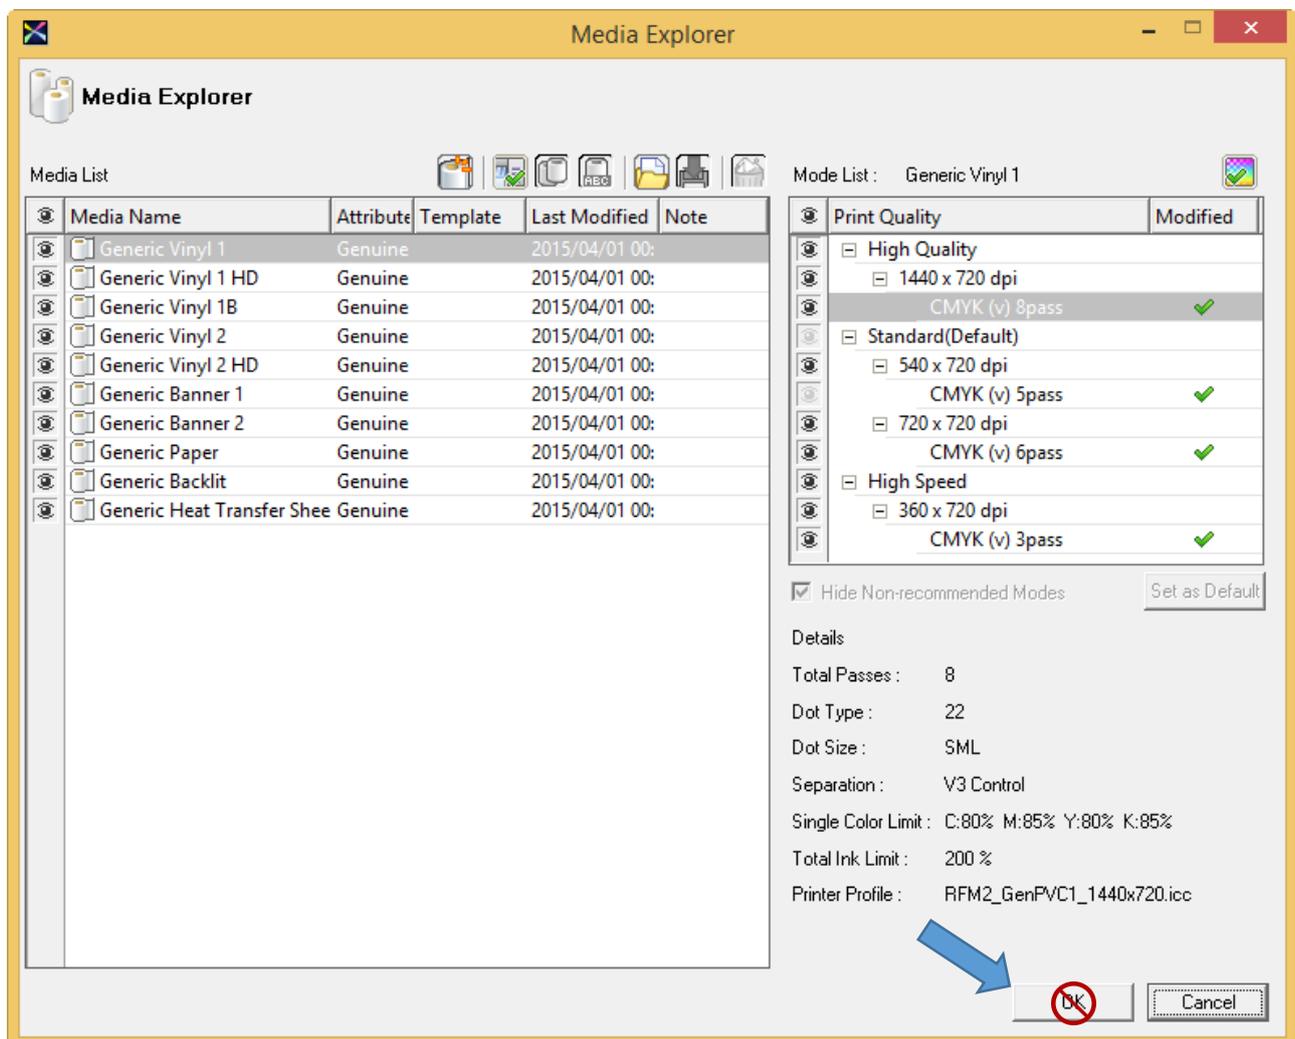

From the menu Media Explorer, choose “Load from File”

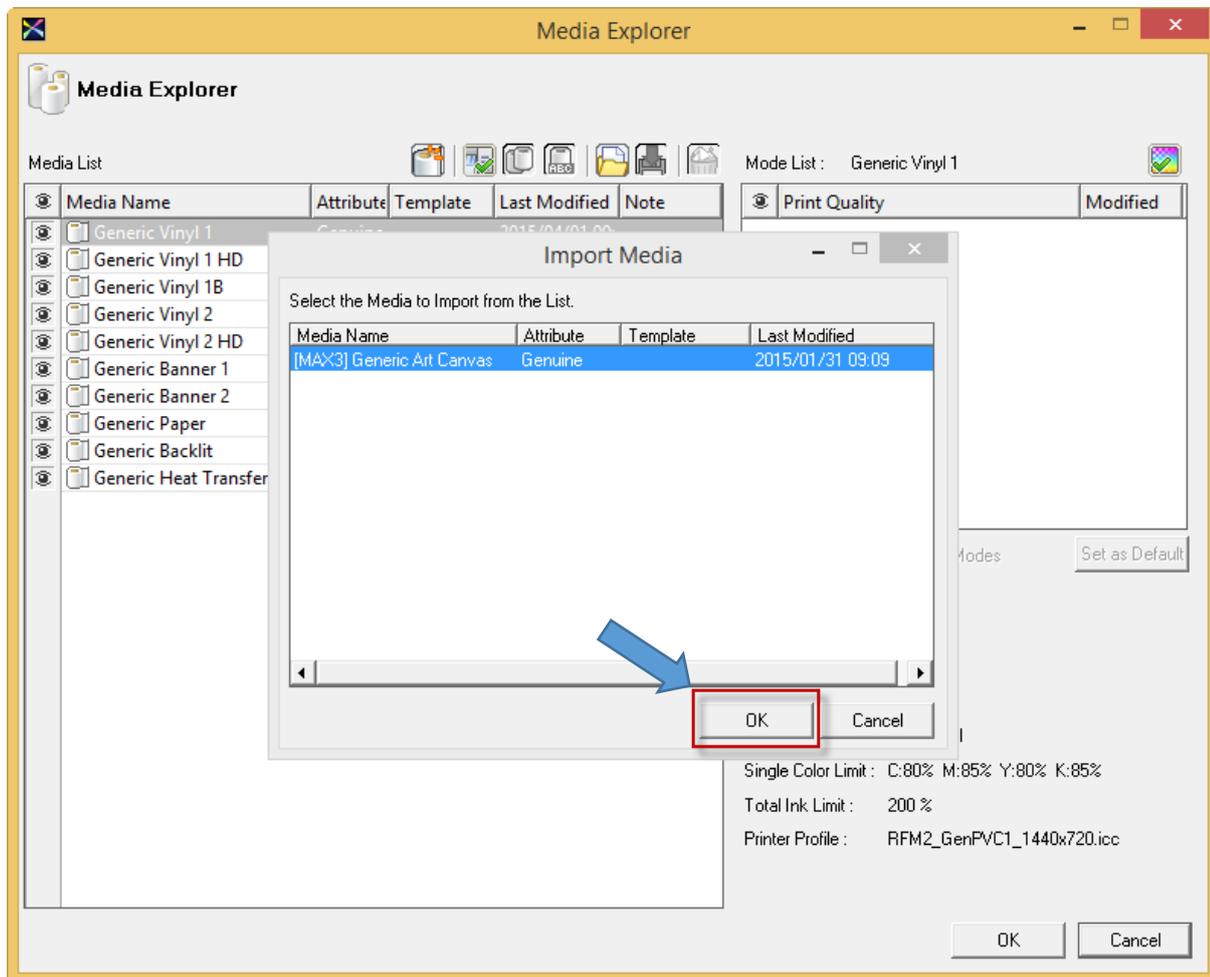

Open your folder where the files have been extracted.

How to import profiles

DO NOT click OK, until VersaWorks have finished the import of the profiles

How to import profiles

The system will display the profile you are about to import.

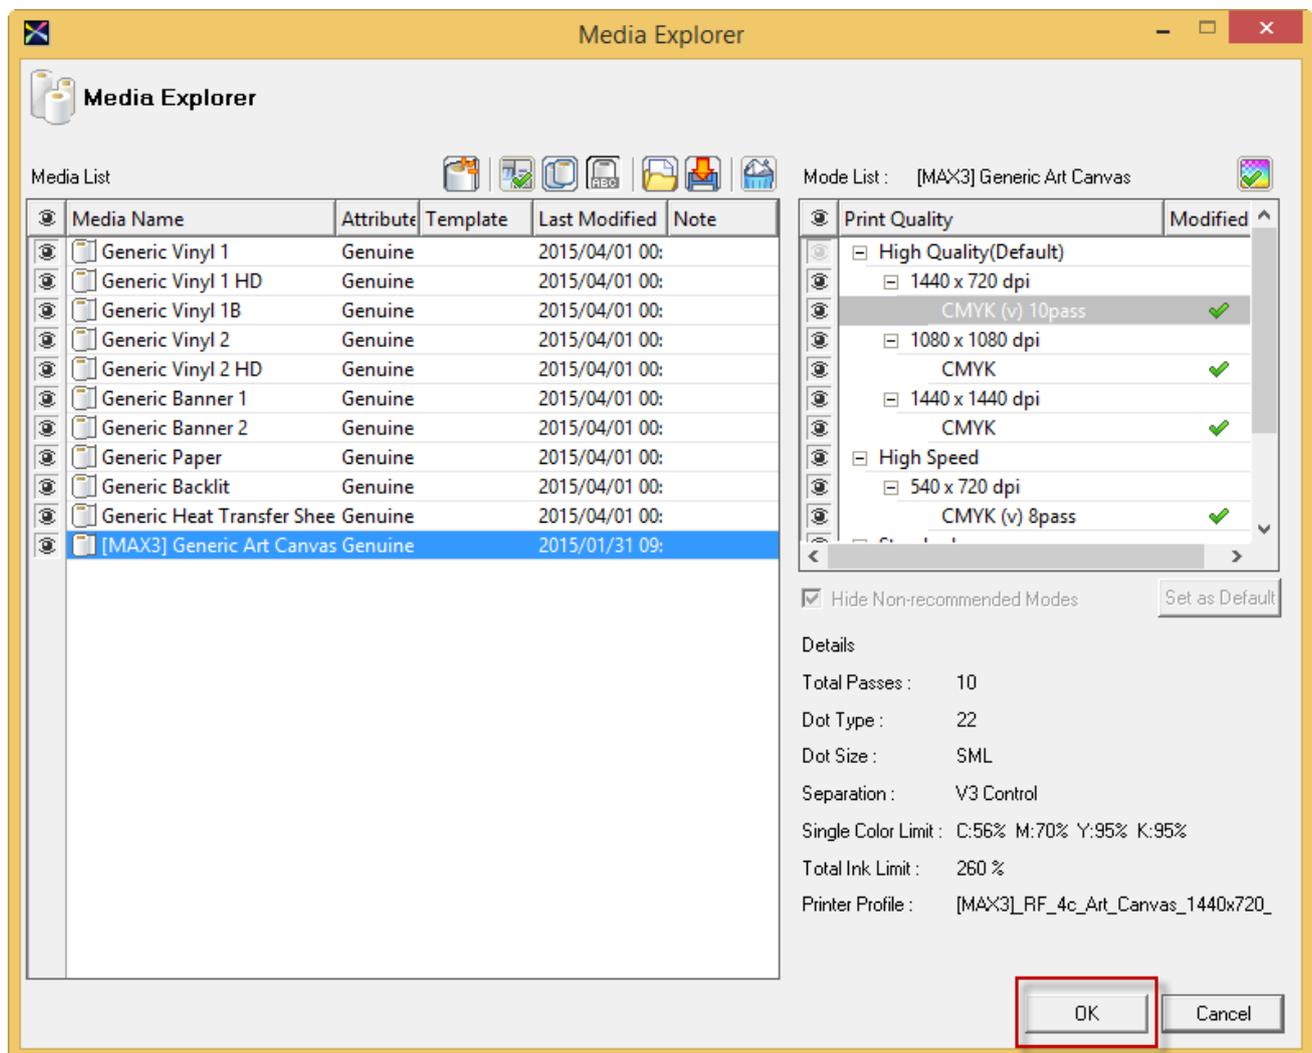

Click "OK"

Media Name	Attribute	Template	Last Modified	Note

Other function

The screenshot displays the Roland Profile Center website interface. At the top right, there is a navigation bar with 'Roland DG Website | English' and a dropdown arrow. Below this is the Roland PROFILE CENTER logo and navigation links for 'Profiles | Support | About'. A dark banner below the logo reads 'Your source for Media Color Profiles' and includes a user profile 'Michael Møller | edit account | logout'. On the left side, a vertical menu contains buttons for 'Profiles', 'My printers', 'My profiles', 'Download Queue', and 'Profile conversion' (which is highlighted with a red border). The main content area is titled 'Profile conversion' and contains the text: 'Use this tool to convert your existing ECO-SOL MAX or ECO-SOL MAX2 profiles into ECO-SOL MAX3 profiles. Simply load your existing RML file here and press "convert".' Below this text is a dashed rectangular box containing the text 'Upload your RML file' and two blue buttons: 'Choose File' and 'Convert'. A blue arrow points to the 'Choose File' button. At the bottom of the page, there is a footer with copyright information: 'Copyright © 2015 Roland DG Corporation | Hosted by ColorBase™ | Total profile count: 442' and links for 'Contact Us | Privacy Policy | Terms of Use'.

If you have converted a printer from Eco Sol Max / Max 2 inks to Eco Sol Max 3 inks, and have made your own profiles for the current ink setup, it is possible to convert your profile to be used with Eco Sol Max 3.

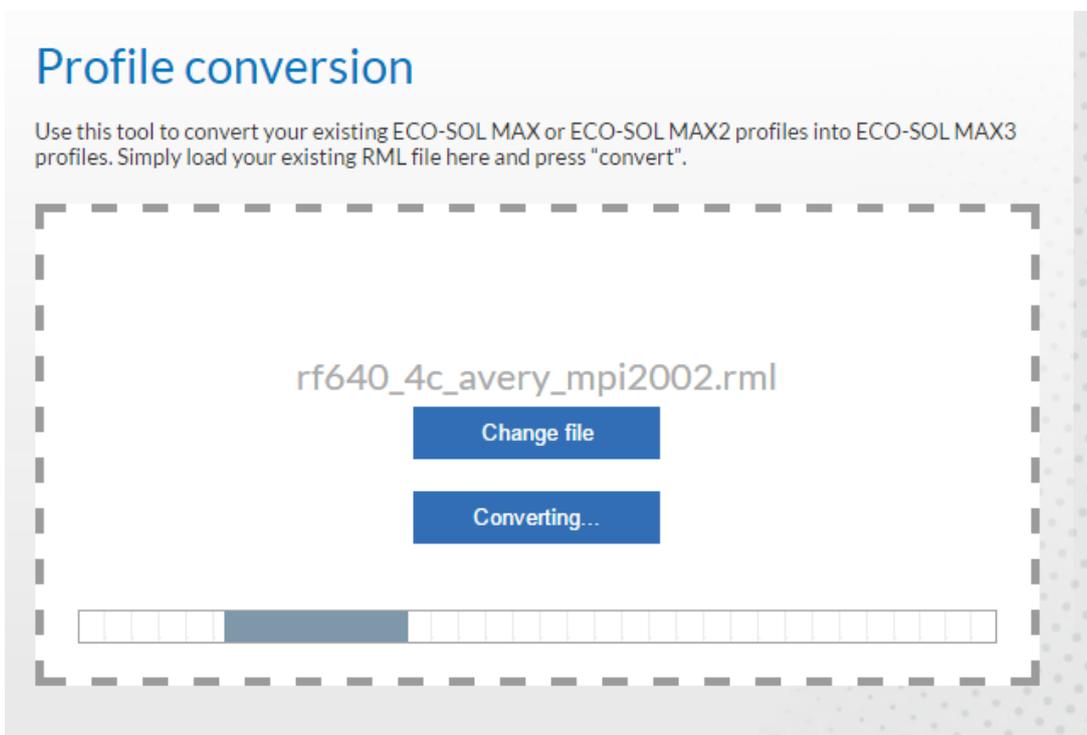

Choose you file (rml) by clicking “Choose File”

In this example we use a profile made for RF-640 using Eco Sol Max 2 inks.

Other function

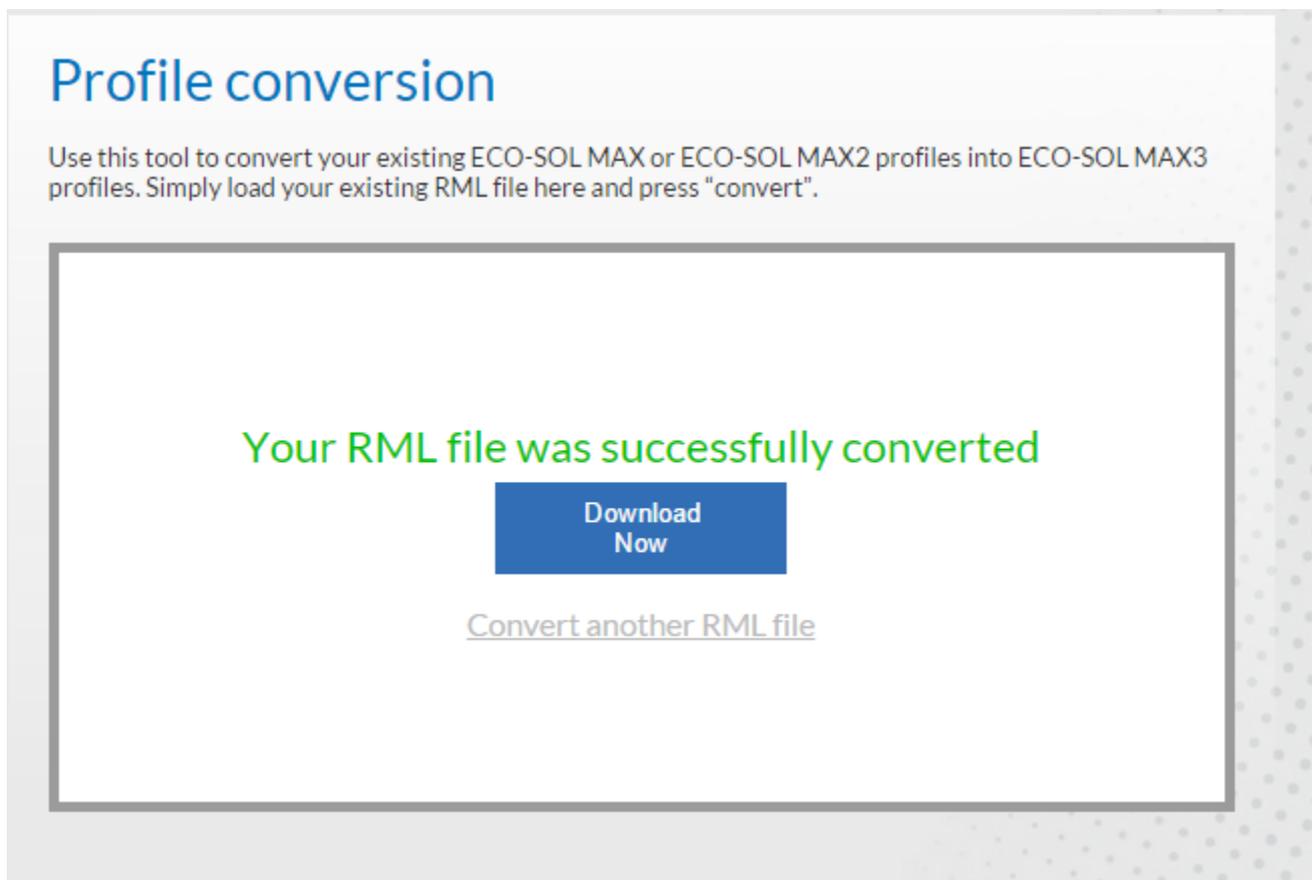

Choose your file, and click “open”

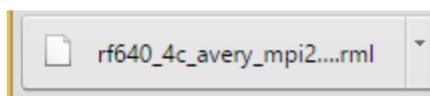

The converting process is started automatically.

Other function

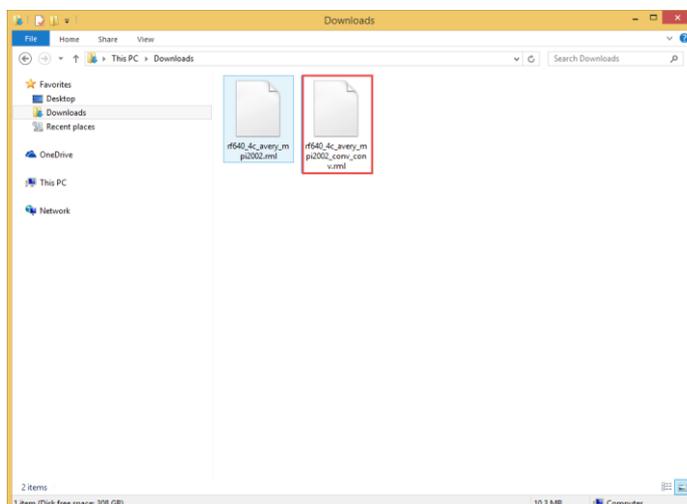

After converting you will be able of downloading your file.

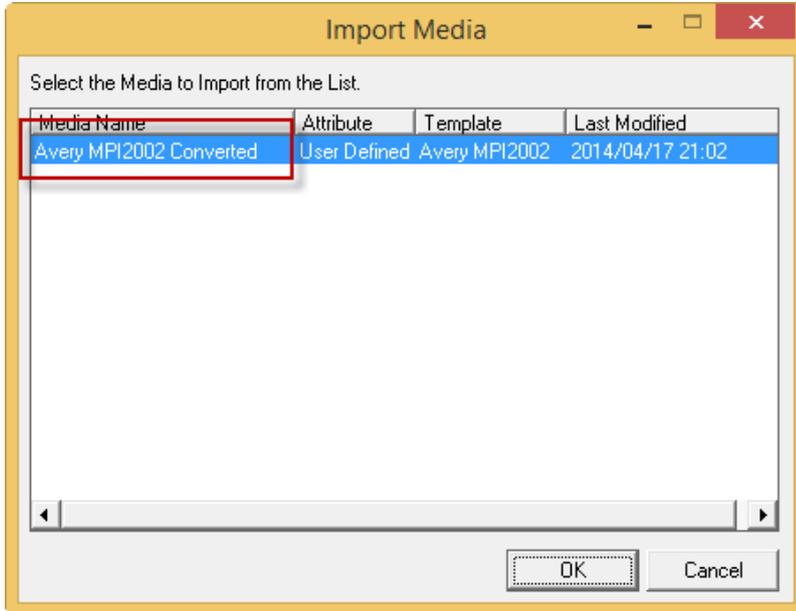

Please use this file for your Roland VersaWorks.

You will be able to different the two files. The converted file will be named "conv"

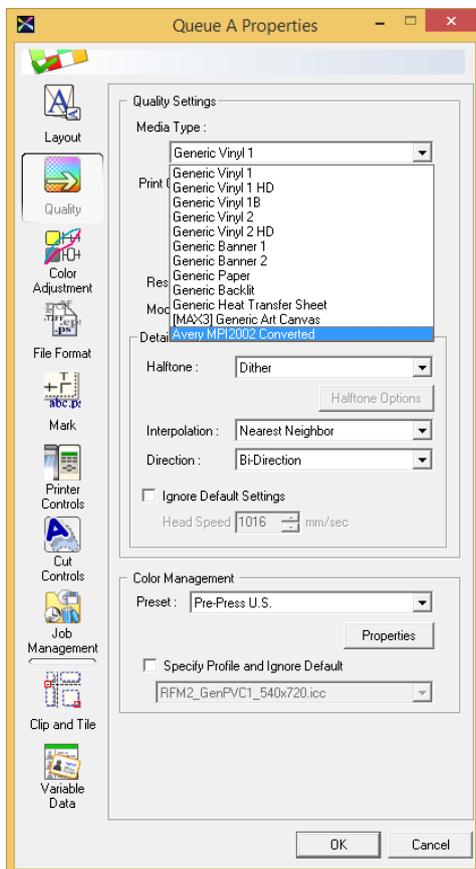

Other function

Import the profile, using the same procedure as described earlier.

Support

Need help? Below are a few of our support resources. If you can't find what you're looking for, please [contact us](#).

What profiles are currently available within the Roland Profile Center?

Initially customers will only be able to download profiles for ECO-SOL MAX 3. In the future the service will be extended to offer profiles from media manufacturers and RIP software providers across the other Roland DG inks.

How can I download a profile from the Roland Profile Center and import it into VersaWorks®?

The steps for downloading and importing a profile are quick and easy. Users simply select the Printer, RIP and desired Media. The available profiles are displayed for download. After downloading you can then import your VersaWorks profiles in the normal way. Click here to read a PDF on how to import profiles from the Roland Profile Center into VersaWorks.

In the support section, you will find help on the most used questions.

In case of any questions or support, please contact you either via the contact us form.
